

Your Intuitive Mail Center Specialist

When it comes to meeting the demanding needs of your mail center operations, the DS-90i folder inserter offers versatility and the ability to process the widest range of business applications with ease.

From traditional business correspondence to unique document combinations, the DS-90i includes features to ensure each recipient receives the document. Designed for simplicity and ease-of-use, the touch screen interface has color-based icons to virtually walk the operator through every step of the process. Modular in design, the DS-90i can be expanded from two to seven stations.

Automate Your Document Processing

Neopost's Output Management Software (OMS) will help you get the best out of each of your documents.

- Automatically add a barcode in the right place to drive your folder inserter
- Remove old OMR marks to give more value to your documents
- Select inserts from multiple trays
- Guarantee your mail integrity with secure control marks
- Split your print file based on number of pages

Environmental Commitment

The DS-90i carries Neopost's Eco-Label which aims to provide a clear and consistent set of environmental performance criteria used in the design phase of our products.

How We Reduce Our Environmental Footprint:

- Neopost limits the machine weight and the amount of raw materials used for production.
- The volume of our packaging is kept to a minimum and is 100% cardboard and recyclable.
- Packaging for the DS-90i represents less than 20% of the total weight of the packed product.
- The user-friendly sleep mode helps reduce energy consumption.
- We develop our products to ensure a minimum recyclability rate of 75%.

Full Content Control and Security You Can Rely On

The DS-90i can read any type of coding such as OMR, OCR, 1D barcodes and 2D Data Matrix codes. Furthermore, the code can be printed anywhere on the document. This unique feature provides full flexibility to fulfill any layout requirement.

In order to securely process personalized mail runs and those with a varying volume of documents per set, the DS-90i includes several automatic features to ensure that every recipient receives the right mailpiece.

- Reading of sequencing marks allows you to control printing accuracy, and inserts can be selected based on customer profile
- Optional Integrity checking software, Mail Piece Production Control (MPPC), ensures 100% accurate mail processing

Sending Mail On Time Is Key For Your Business

Neopost's Remote Assistance means a Neopost Service Engineer can remotely view the screen of an inserter and guide the operator. This is very useful for novice operators or temporary staff who are not familiar with the system.

Furthermore, our online assistance can instantly analyze your system and provide operators with immediate answers. Neopost's Remote Assistance significantly maximizes the uptime of your system.

State-of-the-Art User Interface

The DS-90i interface was designed with the operator in mind for unparalleled ease-of-use. Once a job is selected, the folder inserter interface provides a detailed view of the system and job parameters. Up to 50 jobs can be quickly accessed from the on-screen job list. Graphics prompt the user on where and how documents are to be loaded. Color-coded confirmation of job settings is displayed on-screen via paper sensors.

Both novice and experienced operators will appreciate the intuitive, interactive functionality of the graphical user interface. The fast set up of jobs and clear instructions for loading documents contribute to increased productivity.

System that Adapts to Your Needs

The modular design of the DS-90i delivers the flexibility you need as your business grows and requirements change. Simply add the right module at the necessary time to accommodate your mail processing applications. The increased functionality provides the opportunity to take on more projects, further optimizing your productivity.

Specifications

Processing speed	Up to 4,300/hr.
Color touch screen	Standard
Automatic settings	Standard
Job memory	50
Feeders	Up to 7
High-capacity feeder capacity	Up to 725 sheets (20 lb.)
MaxiFeeder capacity	1,200 sheets (20 lb.)
FlexFeed capacity	325 sheets (20 lb.)
Envelope feeder capacity	500 or 1,000
Fold types	Letter, z-fold, single, double parallel, no fold $\triangle Z \angle \llcorner _$
Folding capacity	Up to 10 sheets (20 lb. single fold)
Document height	3.5" x 14"
Document width	5.1" x 9"
Document weight	16-66 lbs.
Maximum set thickness	2.5 mm
Envelope length	3.5" x 6.3"
Envelope width	6.3" x 9.7"

Options

Barcode Recognition (BCR)	Available
Optical Mark Recognition (OMR)	Available
2D Data Matrix	Available
Optical Character Recognition (OCR)	Available
Mail Piece Production Control (MPPC)	Available
Mailing system interface	Available
Short feeders	Available
Different exits: catch tray, side exit, conveyor belt	Available

System Dimensions

	Length x Depth x Height
DS-90i (4 stations)	59" x 16.5" x 36.5"
Weight	308 lbs.

We've Got You Covered

Neopost maintains a network of offices across the country to provide local customer support and trained technicians who are ready to assist you. You can be confident that when you need knowledgeable support or expert service, the point-of-contact will be a Neopost office in your area consisting of a team of local professionals.

Why Choose Neopost?
